

Professional Medical Health-Care Scales

Quality engineered for accuracy, durability and reliability.

Maximum comfort and safety. Unsurpassed function and design.

Description / Features

BW-5160M comes with robust handrail which allow weighing of wheelchair bound patients, standing patients with walker and patients sitting on stationary chair. Durable and large platform size of 760 x 800mm with adjustable rubber feet provides good stability. Sturdy platform with low angle and integrated ramps provide easy-on and off access. It can be folded and store away easily. Build-in handle and transport castors provide hassle free movement.

Functions:

- ✓ Tare function to subtract the weight of wheelchairs, and client's belongings, etc....
- ✓ Measure accurately the client's weight data automatically, without touching any keys.
- ✓ The "Hold" key improves weighing accuracy for unsteady or shaking clients.
- ✓ "Recall" key improves record keeping, by displaying the client data after they have stepped off the weighing platform.
- ✓ BMI (Body Mass Index) function.

Options:

- ✓ Expanding ramp (BW-9420)
- ✓ Backlight display
- ✓ RS232 interface
